

INTEGRATED TECHNOLOGY FOR CONSIDERED SPACES

AVP

Company Profile

Automation, security, access, Wi-Fi,
professional AV and energy —
designed as one quiet, reliable
experience.

A home that responds before you ask.

Scenes, security, cinema,
connectivity and energy awareness
— orchestrated so the technology
disappears into the living
experience.

SMART AUTOMATION | SECURITY | WI-FI | HOME
THEATRE

Performance without visual noise.

Access, collaboration,
surveillance, network resilience
and energy visibility designed
into the workplace — never
added as an afterthought.

ACCESS | PROFESSIONAL AV | CCTV | CONNECTED
WI-FI | ENERGY

Everything critical. One design conversation.

AVP brings individual systems into a single, accountable outcome.

01 **Smart automation**

Scenes, lighting, shades and intuitive control.

02 **Security & surveillance**

CCTV, perimeter awareness and incident readiness.

03 **Access & fire safety**

Credentials, visitor flow and life-safety coordination.

04 **Connected Wi-Fi**

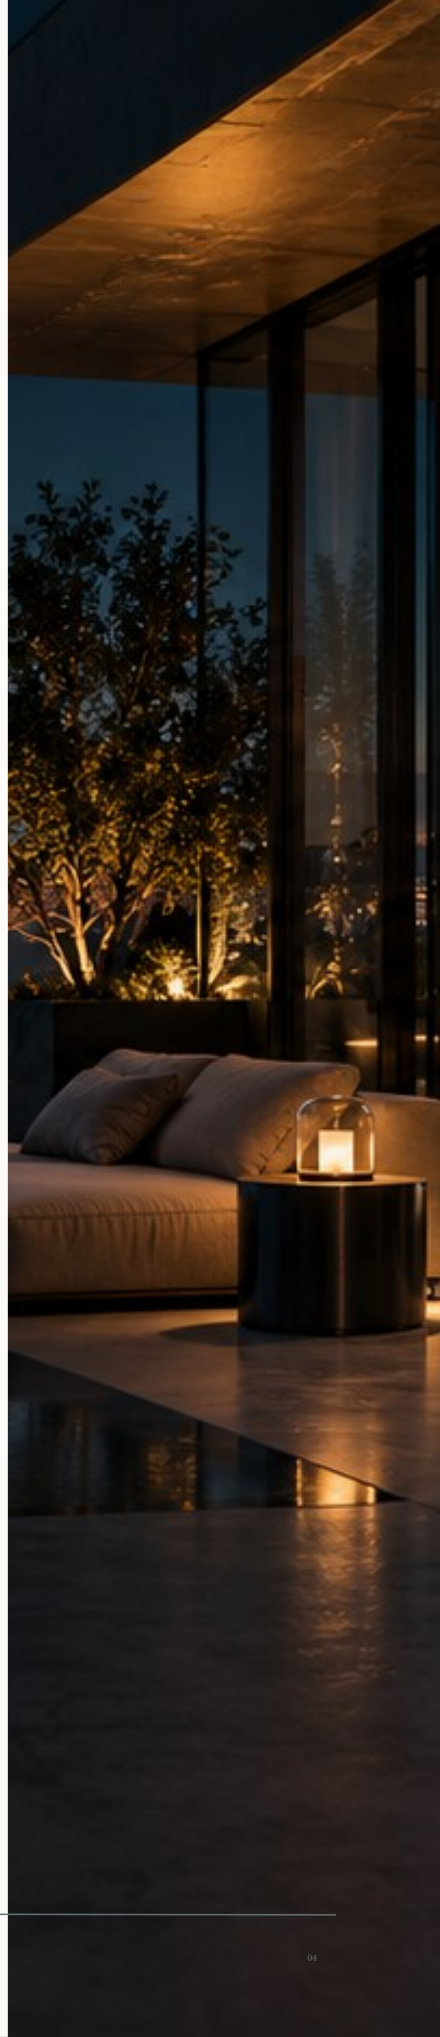

Coverage, capacity and secure segmentation.

05 **Professional audio & video**

Home theatre, meeting rooms, displays and sound.

06 **Renewable energy**

Solar, metering and a clearer energy picture.

Trusted where the details matter.

A representative selection of organisations and destinations AVP has supported. Scope remains subject to each client agreement.

Hero MotoCorp

Ashoka University

Larsen & Toubro

Motherson

Vodafone

Hard Rock Cafe

IndusInd Bank

AAFT / Marwah Studios

Royal Norwegian Embassy

Experience that remains close to the work.

For more than 20 years, AVP has delivered and supported technology systems in demanding real environments. Our directors stay close to design decisions, installation quality and client outcomes.
